6	\$32,960	\$60,976
7	\$37,140	\$68,709
8	\$41,320	\$76,442
For each additional, add:	\$4,180	\$7,733

**Private School Choice** refers to programs which give parents the financial ability to choose the school their children will attend. It includes programs such as tuition vouchers, scholarship tax credits and Education Savings Accounts (ESA)

**Vouchers:** Parents receive all or part of the state dollars earmarked for their child's education.

**Tax-Credit Scholarships:** Individuals and/or corporations receive tax credits (not deductions) for contributing to nonprofits (also known as SSO, STO, and SGO) which then use the donated money to fund private school scholarships.

**Please Note:** Information is accurate as of November 2017. Rules can change. Please contact Agudath Israel at [staterelations@agudathisrael.org](mailto:staterelations@agudathisrael.org) for more information. Chart doesn't include pre-K, special needs scholarship programs, or states without an Orthodox Jewish day school.
